

The FCC; I support satellite radio. XM radio does an outstanding job of programing and background research into their shows. I enjoy and depend on their news and talk shows. When I buy a new car with satellite radio, I will need reliable weather and road information and will need to know where to find it. SATELLITE RADIO IS ALWAYS THERE AND ALWAYS ON THE SAME CHANNEL.

Furthermore, I live between two mountain ranges and satellite radio is the only radio I can get.

Thank You For Your Attention;
